

PRODUCT SHEET

GLX Connect

Your Cloud-Hosted SCADA Solution - Flexible, Scalable, and Secure Automation for Water Utilities.

GLX Connect offers a subscription-based, cloud-hosted, and ISA-101 compliant SCADA service designed to meet the specific needs of water utilities.

By providing real-time visibility, control, and intelligence, GLX Connect transforms how you manage and optimize your water and wastewater treatment facilities.

KEY FEATURES AND BENEFITS:

Seamless Integration

- Direct interface with GLX's Products like GLX HydroControl GW, GLX HydroTrack WW, GLX LiftControl, HydroTrack GW, and SmartView.
- Compatible with your existing PLCs using protocol converters, ensuring flexibility across various existing infrastructures.

Enhanced Operational Efficiency

- Reduce non-revenue water by an average of 20% and cut energy costs by up to 15%.
- Improve response times to system alarms by 50% and enhance workforce productivity by 35%.

Advanced Security and Compliance

- Ensure strict compliance with industry regulations, minimizing risks of penalties.
- Feature robust cybersecurity measures to safeguard your data and operations.

IMPLEMENTATION PROCESS:

Assess

Collaborate with our experts to evaluate your current systems and identify key areas for improvement.

Design

Receive a standard solution configured to integrate seamlessly with your existing infrastructure, whether you're using GLX hardware or other systems.

Implement

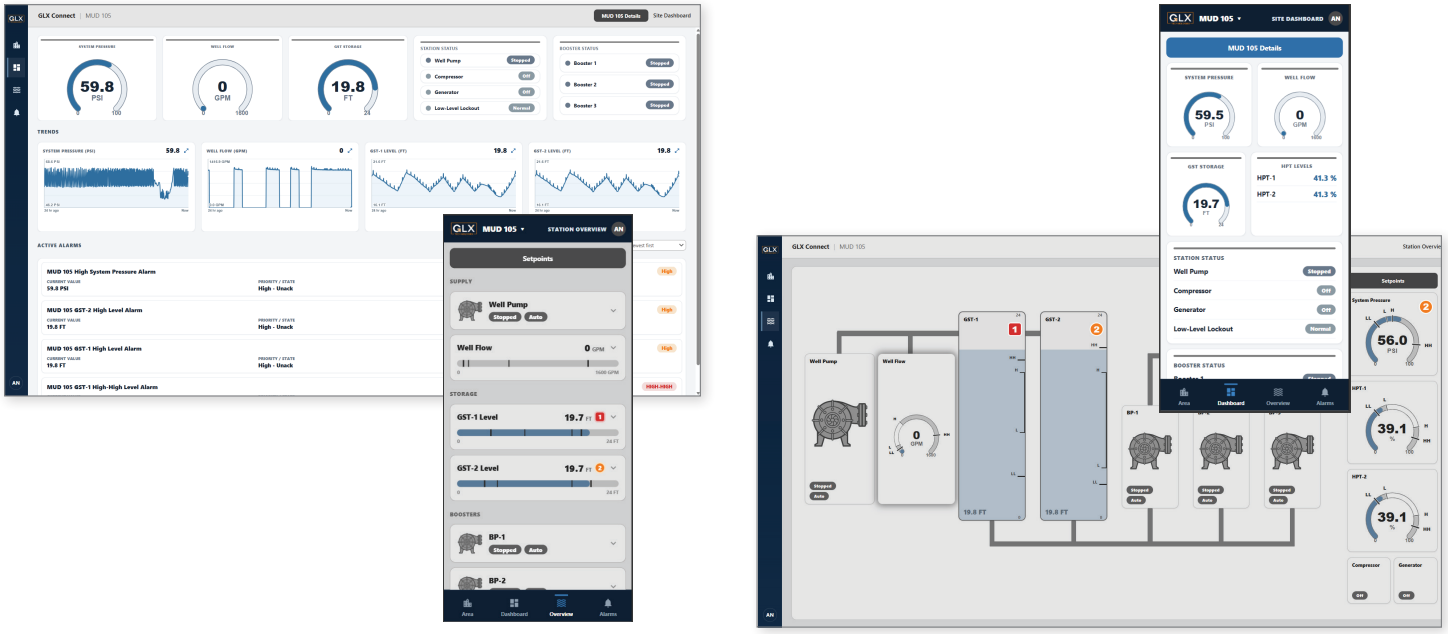

Deploy GLX Connect with minimal disruption to your operations, supported by our expert team every step of the way.

Expand

Scale your solution as your needs grow, with ongoing support and advanced features that evolve with your utility.

GLX CONNECT APPLICATION

Unlike general automation vendors and in-house tech teams, GLX Connect provides a specialized, cost-effective ISA-101 compliant solution tailored for the unique dynamics of water utilities. Our system offers more than just control—it equips you with the tools to make data-driven decisions that improve efficiency and compliance.

SERVICE OVERVIEW:

Initial Setup & Integration: Full implementation services for installing GLX products or protocol converters, ensuring seamless integration with existing monitoring devices or establishing new setups.

Subscription Monitoring Service: Once set up, our GLX Connect monthly subscription provides continuous monitoring of all site signals through our advanced cloud-hosted SCADA system, featuring real-time data visualization and automated alerts.

Ongoing Support and Scalability: Our service includes expert support and regular updates, with flexible options to scale up or enhance functionalities as your operational needs grow.

OPTIONAL SERVICES AND FEATURES:

SCADA customization services
